Mr. Conrad

August 26, 1966

Mr. Griffith

President's Commission on
Assassination of the President
Exhibits being retained by Bureau

Subsequent to the publication of the Warren Commission's Report in September 1964 the Bureau continued to receive from time to time occasional material purporting to relate to the assassination matter. For the most part these items consist of letters setting out theories or views on the assassination. Representative examples of such items, received by the Bureau and still in the possession of the Bureau, are listed as follows:

1. Four letters to Mrs. Oswald
2. Letter to Dallas Times Herald
3. Western Union blank form containing printed name "Lee H. Oswald"
4. Letter to FBI, Dallas
5. Two photographs and one letter bearing Russian writing

The Bureau has received authorization from the Department to turn over to Archives all material involved in the Commission's investigation, and the Laboratory has been instructed to make the necessary arrangements for the transfer. Since the above-listed material was received subsequent to the Commission's report, it is presumed that it should not be included in the material to be turned over to Archives.

Memorandum to Mr. Conrad
Re: President's Commission on
Assassination of the President
Exhibits being retained by Bureau
62-10960

Xerox copies of the above-mentioned items are attached for convenient reference. Subject to concurrence of the Domestic Intelligence and General Investigative Divisions, it is suggested that this original material not be turned over to Archives when the bulk of the other evidentiary exhibits in this case is delivered to Archives.

ACTION: Memorandum and attachments should be forwarded to the Domestic Intelligence and General Investigative Divisions for review and appropriate comment.
